

RANDOM 'MECH ASSIGNMENT: 3025

The following tables can be used to generate random factions and random 'Mech assignments in the BattleTech year of 3025.

All of these tables use 2D10 to generate a result of 1 to 100. Designate 1 die as the '10' digit and the other as the 'single' digit before rolling the dice. For example, if the first D10 shows a 4 and the second a 2, then a result of 42 has been rolled. A result of '0' on both dice indicates '100.'

If all players agree they may simply choose a faction if they do not want to randomly generate one and then move to the corresponding 'Mech assignment table.

RANDOM AFFILIATION: 3025

If all players agree, randomly roll 2D10 to generate an affiliation. Alternately, simply choose one of the affiliations below.

2D10	AFFILIATION
01-15	Capellan Confederation
16-30	Draconis Combine
31-45	Free Worlds League
46-60	Federated Suns
61-75	Lyrans Commonwealth
76-79	Magistracy of Canopus
80-83	Outworlds Alliance
84-87	Bandit Kingdoms
88-91	Taurian Concordat
92-93	Illyrian Palatinate
94	Barony of Strang
95-96	Lothian League
97	Port Krin
98-99	Elysian Fields
00	Mica Majority

RANDOM 'MECH ASSIGNMENT TABLES: 3025

Once an affiliation has been determined, find its corresponding table below and roll 2D10 to determine the exact BattleMech assignment. If more than one unit will be used in the scenario, repeat the process until the designated number of units in the scenario has been filled.
